Understood. Just wanted you to know I closed that loop with Al C. We also discussed briefly prior to one of your 3A industry meetings. I'll fax another copy of the proposal this afternoon (I'll send the version as passed out of the Senate and the '96 delete all/substitute amendment).

I get to work on a plan and forward ASAP.

al can't ok this stuff. send mn language to me again and make sure julie includes it in my mail she is sending to me on friday. she returns to the office on late thursday or friday. i'll review with the group. if you definitely want to pursue, please put together a one page plan for introduction and passage. the plan needs to include time deadlines for bill drafting, introduction, consideration in first committee, etc., public affairs, media, and other resources needed to get the job done. i'll share ed's draft with you. his draft is still a draft. hope this helps. also you need to know that if you are signing up for moving with or without the rest of the industry. agree?

Don't forget MN. You should still have a copy of the proposed 'delete all' amendment and the language containing the 3A elements. Al C. has reviewed and ok'd.
